Corporate Philosophy

Elegant | Everlasting | Economical

We believe in fostering a culture of innovation and embracing change. Our philosophy is continuously exploring new ideas, technologies, and processes to stay ahead of the curve and deliver cutting-edge solutions. We endorse this through collaboration and teamwork by nurturing an environment where individuals work together, share knowledge, and leverage their diverse skills and perspectives to achieve common goals. Striving to create innovative and inspiring spaces seamlessly blending functionality, aesthetics and sustainability. As our company continues to evolve and grow, these core values remain constant.

"We offer to elevate your space with better, more functional interior and exterior solutions."

Known for their Unique designs, alliances and versatile product range, I, Saif Ali Khan, am excited to be associated with E3 Group as their brand ambassador. Together we will work to turn your dreams into reality!

Saif Ali Khan

VISION

[Enhancing India one state at a time]

Our vision is to have a global impact, shaping skylines, communities, and cultures with our architectural designs and contributing to the advancement of the architectural industry.

MISSION

[Businesses must remain focussed on producing value]

Our mission is to offer cutting-edge and dependable Exterior and Interior solutions "Made In India" that improve buildings' strength and beauty. In every product we manufacture, no matter the scale, we seek to create objects and spaces that resonate with the individual.

Mr Jay Garg
Director

Mr Sanjay Garg
Chairman

Mr Utsav Garg

Mr Ajay Garg
MD

As the Chairman, I am committed to fostering an environment where innovation thrives, collaboration flourishes, and every individual has the opportunity to grow and excel. Together, we have the power to create exceptional designs that leave a lasting impact on our clients and communities. So let us continue to support one another, communicate openly, and share our knowledge to achieve our collective goals.

Mr Sanjay Garg
Chairman

CORPORATE OBJECTIVES WE ASSURE BEST QUALITY

Excellence: We are committed to invest in our employees' development and growth. By nurturing their workforce, we drive innovation, enhance productivity, and foster a positive work environment.

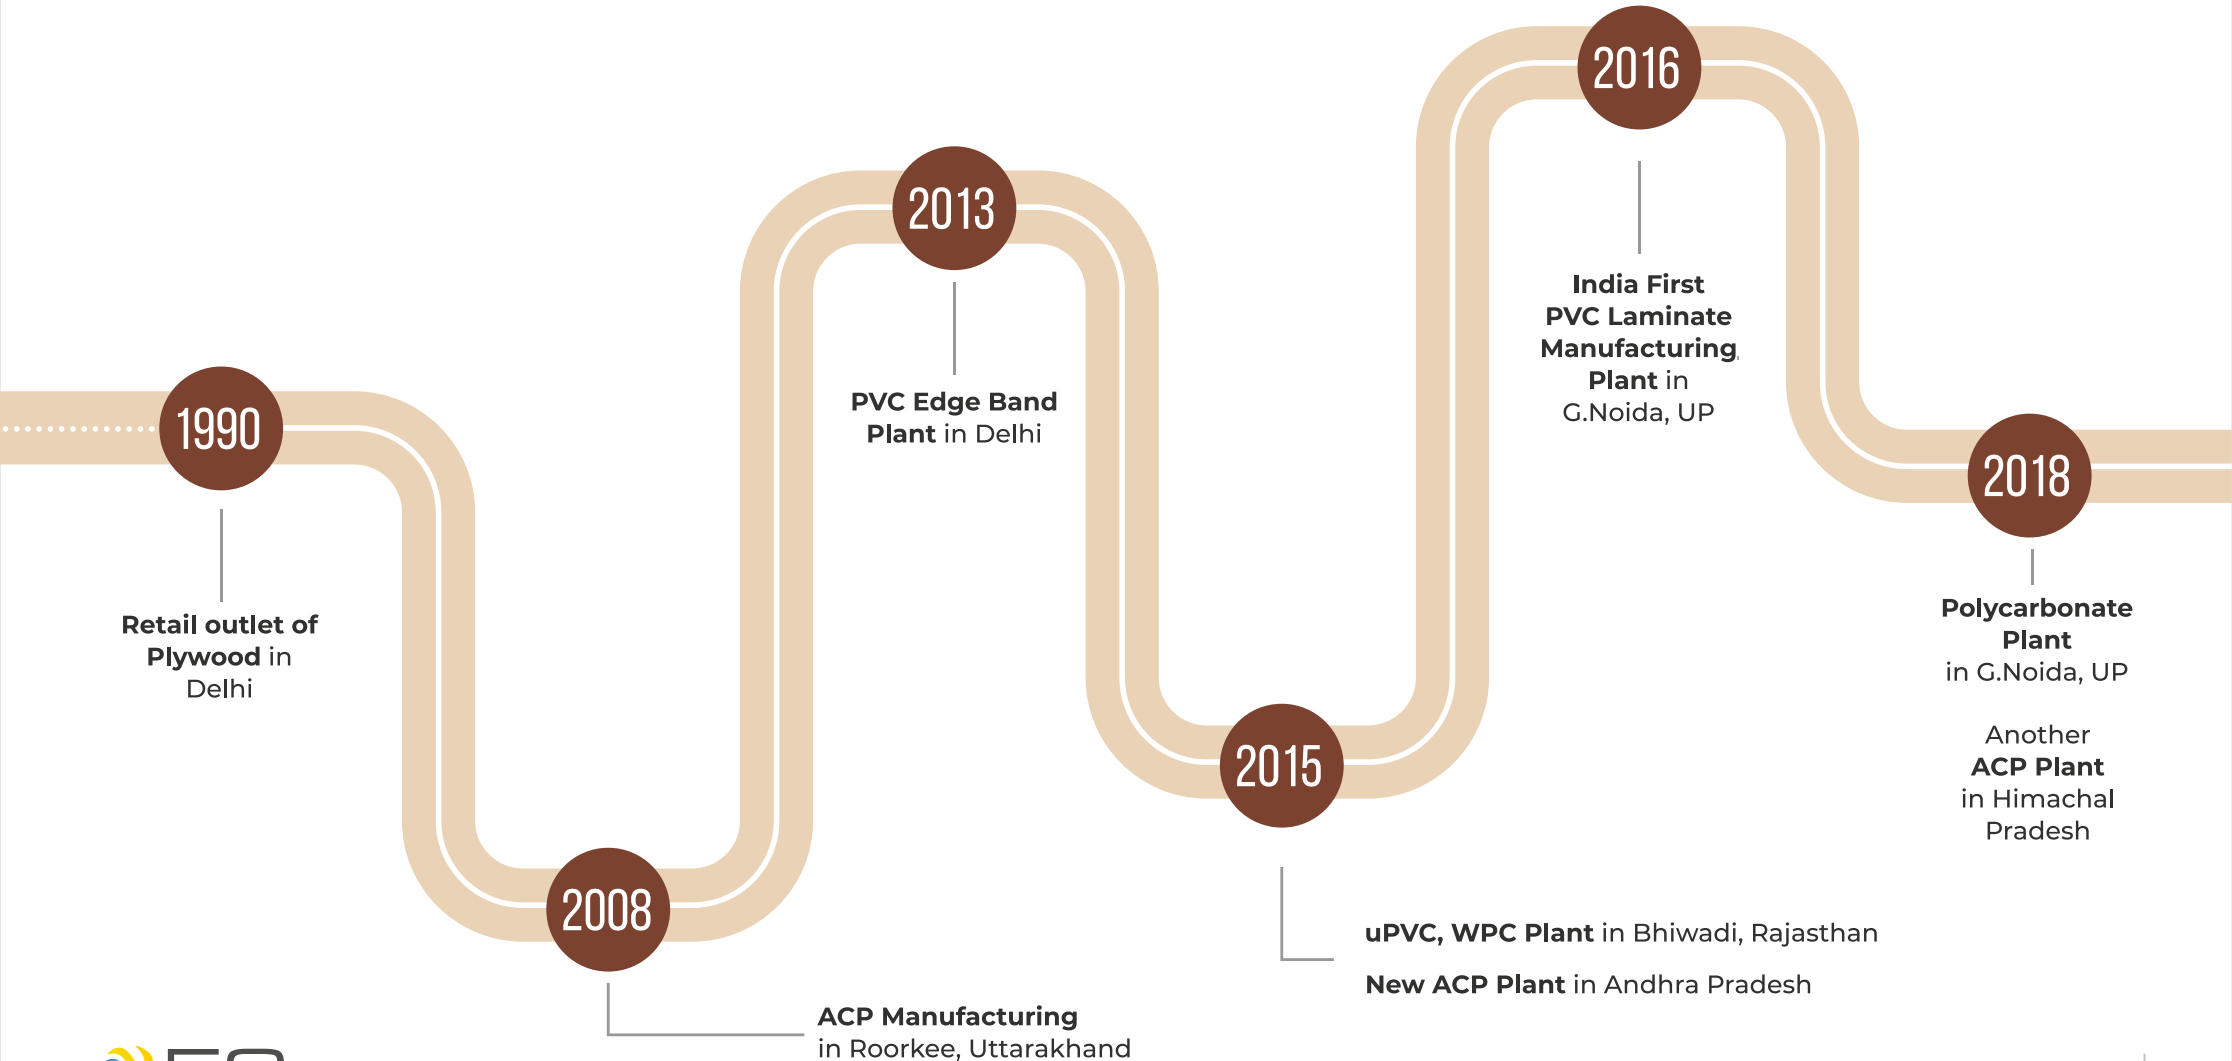

Integrity: We prioritize ethical conduct throughout our operations through honesty, fairness, respect for partners & employees, and compliance with legal and regulatory requirements.

Quality: At E3 quality objectives are set to ensure that the company consistently meets & exceeds customer expectations, enhances customer satisfaction, and maintains a competitive edge in the market.

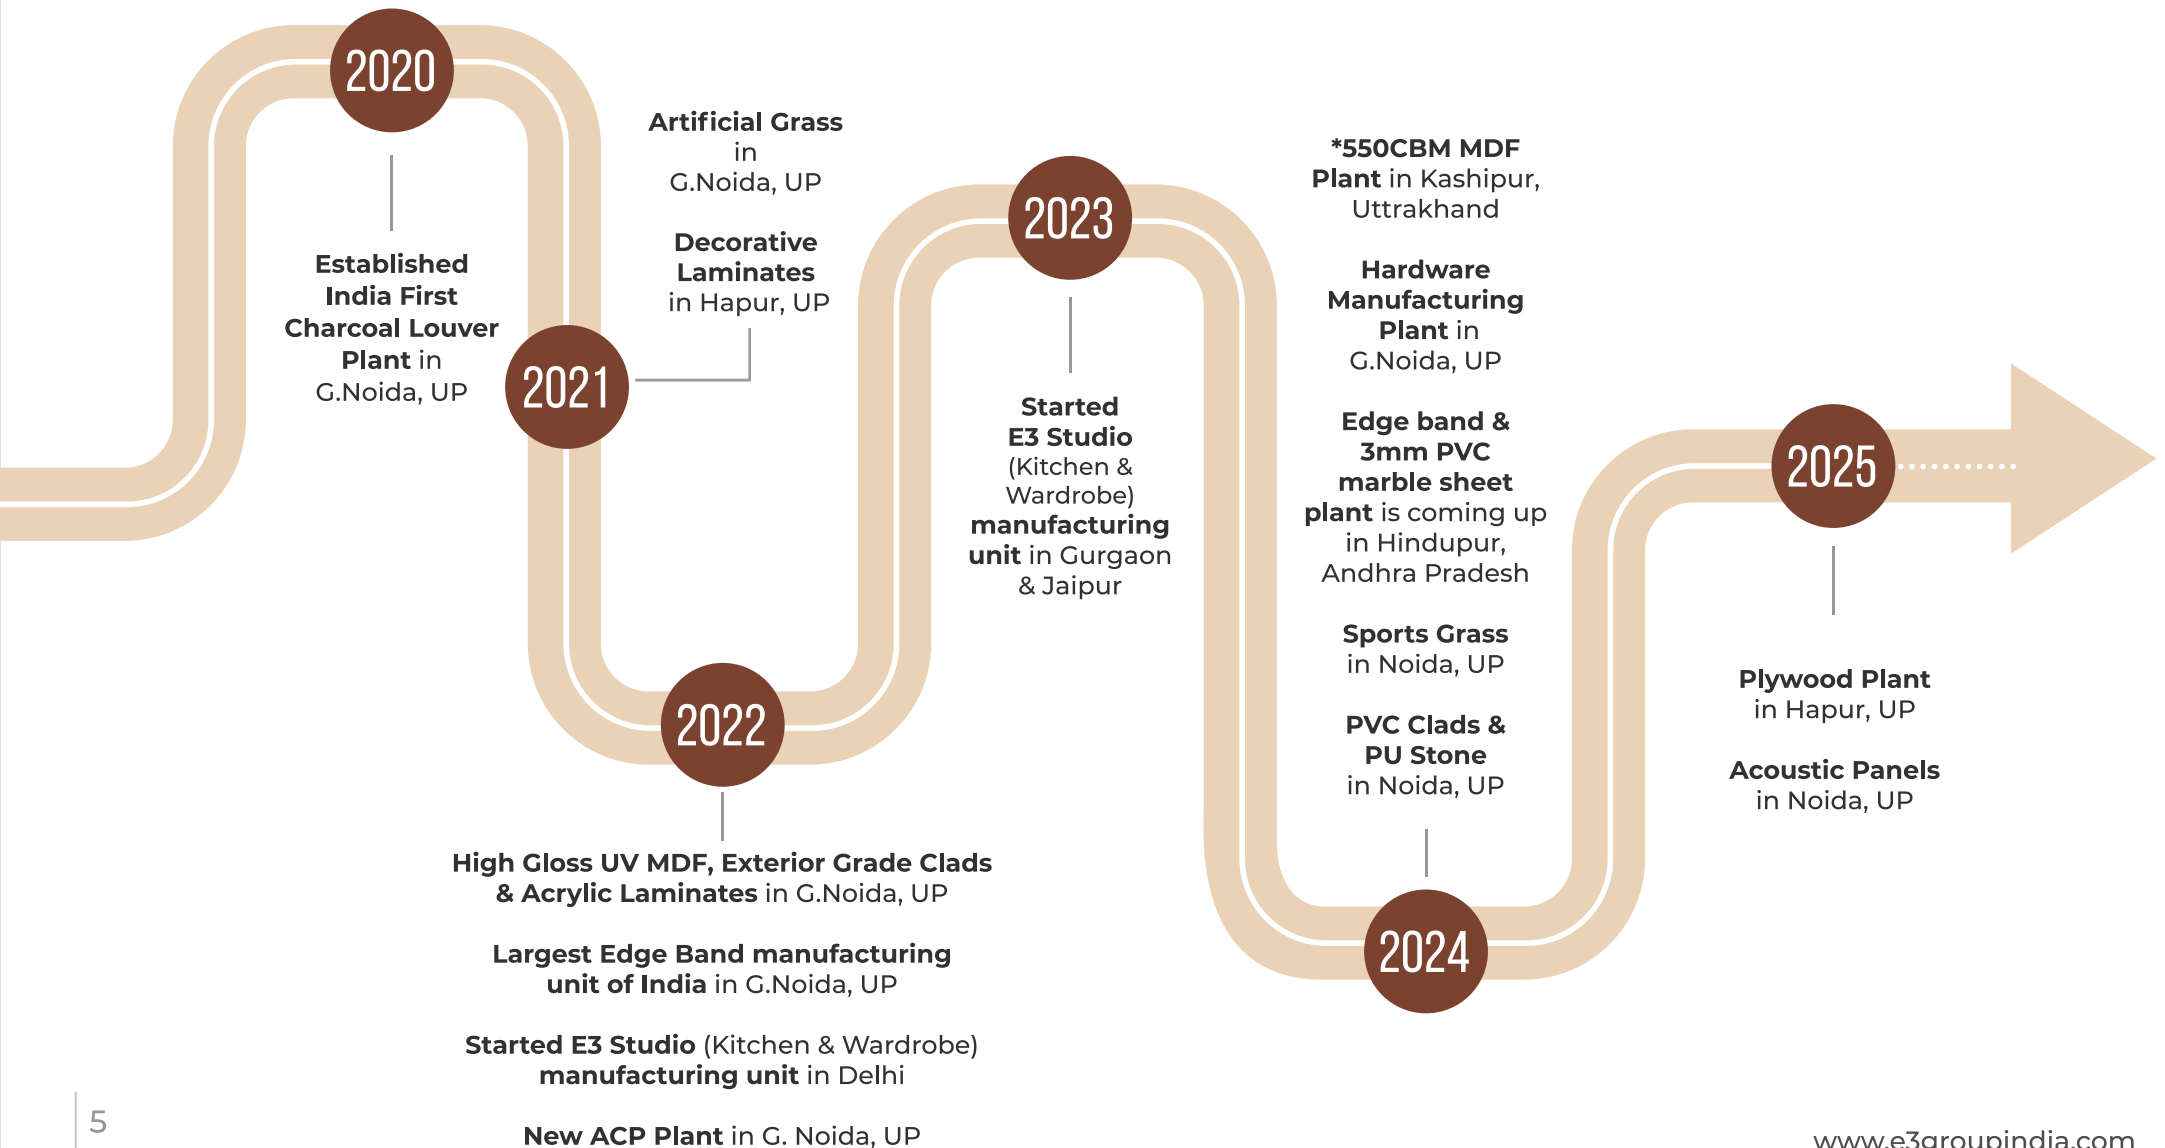

Elegance: We aim to create products and services that are visually appealing, well-designed, budget and user-friendly. This includes aesthetically pleasing details, sleek and intuitive interfaces, and an overall sense of sophistication in the product's appearance.

Economical: E3 focuses on achieving efficiency, cost-effectiveness, and optimal resource utilization. Through set objectives to control and reduce costs across our operations we promise to deliver best 'Made in India' products.

OUR JOURNEY TOWARDS INNOVATION

E3 Group, with years of exceptional experience, is setting high standards in the market. Initially, we started as a single plywood firm in New Delhi. From just a plywood firm covering 600sqft, E3 transformed into India's leading manufacturer of interior and exterior products with dealers and distributors in PAN India. E3 believes in Made in India world-class quality products by "Delivering promise and exceeding expectations". It has helped us to design & deliver contemporary products that have become synonymous with modern living. E3 Group produces eco-friendly products to save earth's green lush which is also the perfect replacement of wood.

INFRASTRUCTURE

MDF MANUFACTURING PLANT

E3 Manufacturing Facility, located in Kashipur, Uttarakhand, committed to setting new industry benchmarks through state-of-the-art European machinery for wood chipping, wood fibre refinement, and continuous pressing. Our facility can produce 550 cubic metres of high-quality wood products per day.

PVC EDGE BAND MANUFACTURING PLANT

As one of the leading edge band producers, with a state-of-the-art 2 lac square feet facility in G. Noida, Uttar Pradesh, a daily production capacity of 10 lac metres. Offering infinite tones, hues, patterns, and custom options. With Pan India reach extending through a network of dealers and distributors.

ACP / HPL MANUFACTURING PLANT

E3 is the largest manufacturer of ACP in India. Its manufacturing plants are located in Uttarakhand, Andhra Pradesh, Uttar Pradesh, and Greater Noida. With a production capacity of 4 million sq.mt. per annum, E3 is the first to establish an ACP manufacturing plant in South India.

CLADS SEAMLESS PANELS MANUFACTURING PLANT

Located in Greater Noida, UP Clads manufacturing unit has a production capacity of 96 million sq ft per annum. Our Interior & Exterior Clads and Mouldings are designed with 100% tested and certified material and are available in wide variants of elegant collections to fit architectural and design requirements.

ARTIFICIAL GRASS MANUFACTURING PLANT

Artificial Grass has swayed the Indian industry with its variants and newly introduced Sports Turf. Production facility located in Greater Noida, Uttar Pradesh, produces 15 million sq. ft. per year. The yarn produced is made safe for children and animals using chemicals like PP and LLDPE resins.

PVC LAMINATES MANUFACTURING PLANT

We are India's first and largest producer of PVC laminates. Our manufacturing facility, located in Greater Noida, Uttar Pradesh, can produce 1.5 million sheets annually with more than 500 different designer laminates throughout India. The PVC laminate brands of E3 are Sky Decor, Mozaic, and Imperia.

POLYCARBONATE SHEET MANUFACTURING PLANT

E3 is the largest producer of polycarbonate sheets. Our Greater Noida, UP manufacturing facility produces 4500 tonnes of polycarbonate sheets each year. We were the first company to introduce an eight-foot-wide sheet in India with the brand names UVLITE and Imperia, a subsidiary brand of UVLITE.

DECORATIVE LAMINATES MANUFACTURING PLANT

Our plant, which is 1,80,000 square feet in size is located in Hapur, Uttar Pradesh, produces 40 lac laminate sheets each year that are 100% phenolic and urea free. We have recently introduced 1mm Laminates and aim to introduce premium, exclusive European paper laminates made in India.

HARDWARE MANUFACTURING PLANT

Located in Ecotech, Greater Noida UP, our new hardware manufacturing unit spreads over 75,000 square feet and has a production capacity of 35 million inches per year in Telescopic channels and 28 million pies per year of 3D hydraulic hinges with fully automatic top-of-the-line machines.

QUALITY TEST & CERTIFICATIONS: Uncompromising Quality, Unparalleled Service

E3 group has achieved several credible certificates from regulatory bodies like the ARAI test certificate, ISO certificate, IIT Bombay test certificate, and other prestigious certificates of guaranteed quality. The authorized testing department manufactures and tests all products per strict protocol. The Research and Development department is dedicated to continuously developing new Make in India product variants while upholding the highest quality standards.

GROUP BRANDS: Powering Progress, Together

E3 Group Brands is regarded as top-notch by every architect, interior designer, and carpenter in the country. By establishing a trend and benchmark for quality, styles, variety, etc., all the brands guarantee going above and beyond what the market expects.

MANUFACTURING FACILITY

E3 MDF Manufacturing Facility, located in Kashipur, Uttarakhand, is committed to setting new industry benchmarks through the utilisation of state-of-the-art European machinery for wood chipping, wood fibre refinement, and continuous pressing. Our facility boasts an advanced continuous press system with a daily production capacity of 550 cubic metres of high-quality wood products per day, along with cutting-edge multi-daylight continuous press.

The Products we are introducing are:

- E3 HDMR
- E3 MDF - Interior Grade
- E3 XDF - Exterior Grade
- BOIL GUARD - 100% BWP FR Grade
- ARTESA Pre - Laminated (HDMR | XDF | MDF)
- MONTANA UV High Gloss Panels
- Vegas Anti Scratch Acrylic Panels
- Como High Definition Acrylic Panels

E3 HDMR

The E3 HDMR panel product stands as a superior alternative to conventional local plywood. These high-density boards come with a 10 years warranty, are engineered to deliver exceptional performance with fibre interlocking technology, characterised by remarkable water resistance, outstanding durability, and unmatched dimensional stability. Notably, they provide a robust shield against termites, viruses, and fungi and are impervious to borers. Best for homogenous constructions. These are high density boards with high screw holding capacity.

Standard Size:
2440mm x 1220mm
Thickness:
3 mm - 25 mm

- Extra Density
- Extra Strong
- Anti Fungus
- Water Resistant
- Borer & Termite Resistant
- Eco Friendly

E3 XDF - EXTERIOR GRADE

E3 Exterior Grade MDF Boards are specifically designed to enhance sustainability and resilience in Indian kitchen settings, effectively addressing the natural challenges that we encounter in our daily lives. These boards boast exceptional water resistance and are meticulously crafted to withstand prolonged exposure to moisture, making them exceptionally well-suited for a wide range of applications in damp conditions.

Standard Size:
2440mm x 1220mm
Thickness:
3 mm - 25 mm

- Moisture Resistant
- Fiber Interlocking Technology
- Termite & Fungus Resistant
- Homogeneous Construction
- Extra Strong
- Superior Quality

E3 MDF - INTERIOR GRADE

These boards are meticulously engineered with fibre interlocking technology catering to the diverse needs of our valued customers, thriving even in India's diverse climate. They stand guard against termites, borers, fungus, and moisture, ensuring your furniture remains in impeccable condition. Being eco-conscious and has no latex content, they become the natural choice for crafting furniture of superior quality.

- 0% Latex Content
- Fiber Interlocking Technology
- Termite & Fungus Resistant
- Extra Strong
- Superior Quality
- Eco Friendly

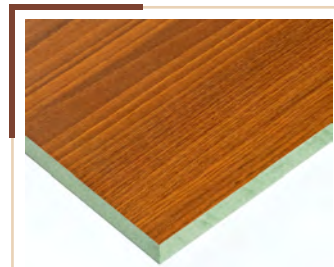

BOIL GUARD - 100% BWP FR GRADE

E3 presents Boil Guard boards, expertly treated to resist moisture and boiling water, making them perfect for high-humidity areas like kitchens and bathrooms. This advanced treatment ensures the boards maintain their structural integrity, preventing swelling, warping, or delaminating. Their robust features make them ideal for durable applications in furniture, cabinetry, and construction.

- Water Resistant
- High Density Board
- Termite & Fungus Resistant
- All Sizes Available
- Thickness 3mm - 25mm
- High Screw Holding Capacity

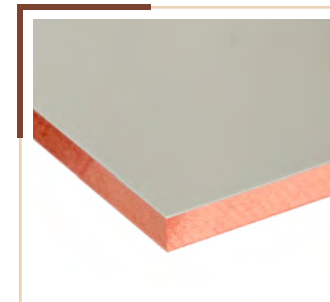

ARTESA PRE-LAMINATED (HDMR | XDF | MDF)

Our Pre-laminated MDF board is available in a range of variations, including HDMR, Exterior Grade MDF, and Interior Grade MDF. Furthermore, it comes in different configurations, featuring German paper laminates, with one-side lamination, both-side lamination, one-side bare, and both-side balancing, ensuring that you have access to a versatile palette of options to meet your specific requirements.

Ranges: One-side laminated (OSL) | Both-side laminated (BSL)
 One-side Routing (OSR) | Both-side Balancing (BSB)

Finishes: Suede and Matt | **Thickness:** 3 mm - 25 mm | **Size:** 2440mm x 1220mm

VEGAS ANTI SCRATCH ACRYLIC PANELS

Our Anti-Scratch Acrylic Panels redefine premium quality by combining a superior E3 HDMR panel substrate with a scratch-resistant co-extruded polymer high gloss European acrylic top layer. What sets us apart is our use of PUR adhesive (Reactive Polyurethane), delivering the highest structural bonding strength in the industry.

COMO HIGH DEFINITION ACRYLIC PANELS

E3 Super High Definition Acrylic Panels are pre-laminated sheets featuring an ultra-glossy European acrylic finish on wood fiberboard. These panels, available on exterior grade and HDMR, offer a mirror-like surface finish that is easy to apply. E3 SHD Panels are perfect for creating modern, elegant furniture with a sleek, reflective sheen, making them an ideal choice for cabinet doors, bathroom vanities, and office furniture.

MONTANA UV HIGH GLOSS PANELS

E3 UV High Gloss Panels require no additional surface finishing, offering a remarkable blend of convenience and aesthetics. At the heart of these panels lies the utilisation of German Decorative paper, meticulously applied to the surface of the Exterior Grade MDF Board.

E3 DELTA TELESCOPIC CHANNELS

Our Delta Telescopic Channels, crafted with European technology, offer superior smoothness and precision in extension and retraction, surpassing even German standards. Manufactured from premium cold-rolled steel, each channel undergoes our exclusive CED and zinc coating process. This ensures exceptional durability, wear resistance, and anti-rust properties, making them perfect for everyday use. Capable of supporting a load capacity of 35 to 40 kg and available in sizes ranging from 8 to 24 inches, these channels are the ideal choice for robust and reliable drawer slides in various applications.

E3 SOFT-CLOSE TELESCOPIC CHANNELS

E3 Soft-Close Telescopic Channels combine European precision with advanced German technology for optimal performance. Equipped with a state-of-the-art damper, these channels ensure smooth and quiet drawer operation, while ball bearings guarantee enduring convenience and durability. The design cleverly conceals the channels beneath the drawer for a sleek, seamless look. Manufactured from premium-grade steel, these high-precision runners deliver exceptional smoothness and reliability. A single pair supports a load capacity of 35 to 40 kg, and sizes range from 10 inches to 24 inches to accommodate diverse drawer designs. Additionally, each channel comes with a 7-year warranty on its lock, reflecting our commitment to quality and longevity.

E3 3D HYDRAULIC AUTO HINGES

E3 3D Hydraulic Auto Hinges are the pinnacle of door hardware, offering unparalleled innovation, reliability, and durability. Engineered with a unique coating and backed by a lifetime warranty, these hinges combine cutting-edge technology with superior craftsmanship.

FEATURES:

Built-in Silent System:

Ensures whisper-quiet operation, enhancing user experience.

Three Rotational Axes:

Provides flexible and precise adjustment for perfect door alignment.

Sleek & Hidden Design:

Offers modern, discreet look that complements any interior.

Flexible & Adjustable:

Easily adaptable to various door styles and applications.

WPE DECKING

E3 Decking redefines outdoor flooring solutions by seamlessly blending the allure of tropical hardwood with eco-conscious design. These decking are not only visually appealing but also deficient maintenance, delivering a top-tier performance that defies the common issues decks typically encounter, such as scratching, staining, mould, and fading.

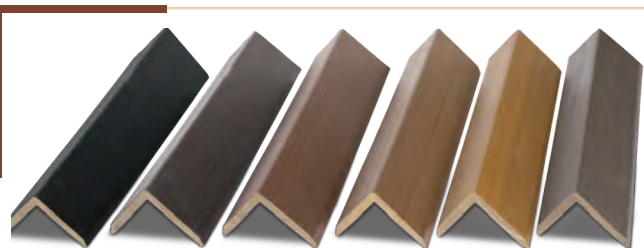

Width: 150mm | Thickness: 23mm | Height: 9'-6"

DESIGNER CHARCOAL MOULDING

E3 offers Charcoal Mouldings that can be installed at the edges or surfaces of structures to create a decorative or finished look. It typically features a curved or angled profile and helps create a smooth transition between the two surfaces. E3 Mouldings provide an opportunity to add architectural character, visual interest, and a finished look to a space, enhancing its overall design & appeal. Available in pastel colours & classic white, which can be painted to match your interiors.

WPE L-PROFILE

E3 WPE L Profile represents a seamless transition, defined by its L-Corner design. These profiles have transcended mere functionality, evolving into a hallmark of modern architectural excellence.

Size: 50mm x 50mm x 6mm | Height: 9'-6"

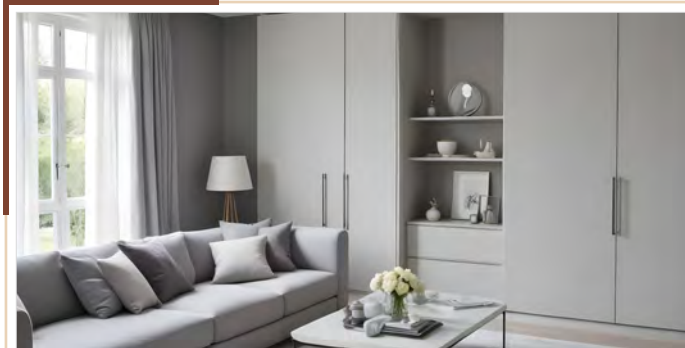

Skydecor Laminates Private Limited (SLPL), established in 2016, is India's first and largest manufacturer of PVC laminates. Our state-of-the-art facility in Greater Noida, Uttar Pradesh, features four extrusion lines and two texture lines imported from Europe, enabling us to produce 2 million sheets annually. With a nationwide distributor and dealer network, we prioritize quality as a core value and business strategy. Continuously innovating, SLPL offers a diverse product range, including 1mm, 0.8mm, and Liner Laminates.

SOFFIT PANELS

Introducing Soffit by Skydecor, the ultimate ceiling solution blending aesthetics and functionality. Derived from the Italian word for 'ceiling,' Soffit adds sophistication to any space. These precision-crafted panels come in various textures, patterns, and colours, ensuring a perfect match for any interior. Durable and easy to install, they offer a maintenance-free solution, improving acoustics and lighting. Lightweight and stylish, preventing any additional burden on the roof, Soffit enhances ceilings and interior walls with elegance and functionality.

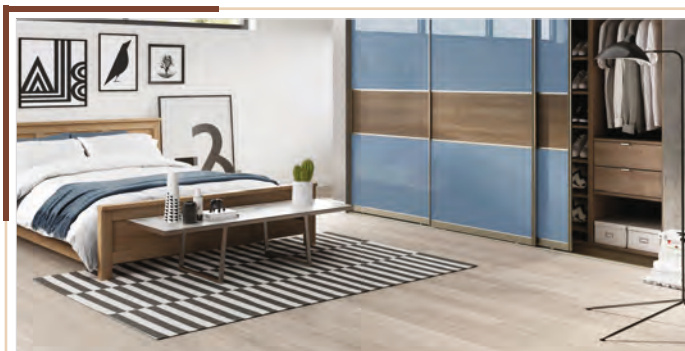

1MM DECORATIVE LAMINATES

Skydecor's 1mm laminate collection epitomises luxury and sophistication in interior design. With elegant finishes and a sleek 1mm thickness, these laminates offer a premium look ideal for surfaces requiring a refined appearance. Durable and resilient, they resist scratches, stains, and wear, making them perfect for both residential and commercial use. The collection features a variety of textures and patterns, from classic wood grains to contemporary designs, ensuring versatile design options.

PVC LAMINATES

Skydecor PVC Laminates are a long-lasting decorative surface solution in residential and commercial interiors launched in 2016. Recommended for vertical and horizontal surfaces that need impact and stain resistance, our PVC laminates are a one-of-a-kind, eco-friendly solution to give you a polished and rich looks.

ACRYLIC LAMINATES

Skydecor offers high-quality acrylic laminate sheets accessible in different colors. Launched in 2022, our Acrylic laminates add a grand aura to your dwelling space. It is available in 1220 mm x 2440 mm size with a thickness of 1.5mm and a 6H coating that protects it from scratches and maintains the opulent looks.

We use European technology with pure acrylic raw material to manufacture Acrylic laminates. It has better weathering properties than other transparent plastics and is simpler to fabricate.

ALUMINIUM COMPOSITE PANELS

E3 ACP, India's leading manufacturer of ACP sheets with impeccable finishing, gives an avant-garde appearance to any structure. Our ACP sheets provide endless possibilities to create structures that inspire and stand the test of time. The company has adhered to the commitment and perseverance in the field of metal composite materials, an effective and high-quality manufacturing process, and management driven by customer orientation, quality, and technological skills for more than 30 years. With sustainability and safety considerations in mind, the future of ACP sheets looks promising as they continue to shape the skyline of our cities.

EDGE BAND

E3 Edge band stands as the premier and the largest manufacturer of edge bands, boasting an impressive daily production capacity of 10 lac metres. The use of European UV coatings ensures an impeccable finish and seamless compatibility with leading laminate and Pre Lam manufacturers. Over the past decade, E3 has been at the forefront of design innovation, responding dynamically to the rapidly expanding Indian market. Starting in 2013, E3 became India's largest edge band manufacturer within just five years. Our Pan India distributorship network underlines our commitment to quality, offering a broad spectrum of high-quality, feature-rich products. E3 is synonymous with excellence in PVC edge banding solutions, making them readily available to retailers and carpenters alike. Complete customization, like matching colours or make in any size, is one of the USPs of E3. Also, E3 Edge bands are machine-friendly, ensuring a higher life of machine parts like blades and buffing units. Our collaboration with top laminate and pre-lam manufacturers has enriched our palette, introducing new shades and options for our clients. They continue to lead the industry, setting standards in quality through innovation and accessibility.

FLUTED EDGE BANDS

Fluted designs have gained popularity in recent years, and they can add a touch of elegance and sophistication to various home decor projects. For the first time in India, E3 Edge Band is providing customers with a stylish and contemporary option to enhance their interior designs with PVC Fluted edge bands in 6 solid colors. For individuals looking to stay on-trend and elevate their interior design projects, it's essential to choose high-quality materials and accessories to ensure a long-lasting and visually appealing result.

SOFT TOUCH EDGE BANDS

Introducing for the first time in India 'Soft Touch Edge Bands', with texture that feels pleasant to the touch. Available in various colours, allowing for customization to match the design and colour scheme of the surface applied to.

ACRYLIC EDGE BANDS

Designing modern furniture is about form and function, and the choice of Acrylic edge banding tape plays an important role. It's not just a finishing touch; it's a statement of precision and sophistication that can take your creations to a new level of aesthetics and practicality. Discover a new way to enhance the value and aesthetics of your furniture with E3 Acrylic Edge Bands. These edge bands' appearance adds a new dimension to your furniture pieces. Available in striking colors, blending elegance with a spectrum of solid shades.

uPVC EDGE BANDS

Very recently, E3 has developed a completely new edge band composition. The new composition is DOP free and does not contain harmful chemicals and called as uPVC Edge band. The new composition makes edge band lighter and softer.

ABS EDGE BANDS

ABS edge banding is environmentally friendly—it's highly recyclable and produces fewer hazardous emissions during both production and disposal. With the rising demand of ABS edgeband, E3 has recently started the production and supplying in various shades and sizes.

Width: 610, 915, 1220,
1525, 1830, 2100, 2440mm

LENGTH
Sheet - 2440mm
Roll - 30500mm

THICKNESS
1.5mm to
15mm

E3 Group is going to bring to you the excellence of E3 Plywood, crafted in the state-of-the-art Hapur, Uttar Pradesh plant. Equipped with advanced machinery and an innovative calibration system, we produce 25,000 sq ft of premium plywood daily. Our commitment to precision and quality ensures unmatched durability and elegance in every sheet.

PLYWOOD

Plywood is a highly sought-after material for interior design and home décor because of its strength, durability, and affordability. It is also an essential tool in the woodworking and building industries.

FLUSH DOOR

E3 Flush doors are contemporary in appearance and ideal for a minimalist look. They feature no designs or grooves where dust could gather, making them simple to clean and made from the finest quality timber. Pair them with E3 laminates.

LAMINATED PLYWOOD

E3 laminated plywood has laminate applied directly to one or both faces of the E3 raw plywood. It is available in a wide selection of fabrics, colours, grain patterns and textures.

BLOCK BOARD

The E3 Block board is constructed using high-grade wood and innovative cutting-edge machinery. It is known for light weight, finish and longevity, outstanding warp and twist resistance, dimensional stability, and other characteristics.

veneers

E3 Veneer plywood panels can be used in various applications, including doors, cabinet panels, and different furniture pieces.

DECORATIVE LAMINATES

E3 is the first manufacturer to make matching Edge bands with Laminates. Alliance Panel Industries is our new state-of-art manufacturing unit in Hapur, Uttar Pradesh, for paper laminates. Our laminates come in various designs, colors, patterns, and textures, making them suitable for various applications. They can mimic the appearance of natural materials like wood, stone, or metal, providing an affordable and low-maintenance alternative to these materials. Moreover, they are made especially with decorative papers with melamine & phenolic resins sourced from the best vendors across the country and are 100% phenolic and urea free.

1st Indian
